MISSION SOFTWARE SERVICES

- ❖ DevSecOps Custom Development
- ❖ Process Automation
- ❖ Application Modernization
- ❖ Low-Code / No-Code Solutions
- ❖ COTS Implementation and Support
- ❖ PeopleSoft, Salesforce, Microsoft PowerApps, And Oracle Enterprise
- ❖ Enterprise Resource Planning (ERP)

Rapid delivery of value is essential in a modern enterprise. Our mission software services deliver the full range of software design, development, deployment, and maintenance support needed for continually modernized mission-focused agencies. Metric5's outcomes-focused, software services embrace enterprise needs for quality, speed, automation, intelligence, and human-centered design.

Metric5 has delivered as a "go-to" resource for CIOs in multiple federal agencies through IDIQ/BPAs that cover diverse services from prototyping to first-of-its-kind implementation of Microsoft products in Top-Secret cloud environments.

DATA SCIENCE AND ADVANCED AI

- ❖ Data Architecture
- ❖ Data Science
- ❖ Artificial Intelligence (AI)
- ❖ Data Quality
- ❖ Data Analytics and Reporting

Data fuels enterprise and mission outcomes. Metric5 delivers the architectures, science, and tools to enable accurate, effective, and responsive data services to address enterprise needs. Our intelligent, agile, and practical solutions meet the essential needs of thriving organizations and agencies.

DIGITAL ENTERPRISE TRANSFORMATION

- ❖ Program and Project Management
- ❖ Enterprise Architecture
- ❖ Intelligent Administration
- ❖ Agile Transformation
- ❖ Cloud Architecture & Migration

The digital enterprise is a transformed organization - adaptable to change, resilient in crisis, and effective in delivering technology-led value to its constituencies. Metric5 provides the leadership, management, excellent execution and planning needed to support digital enterprise transformation in Federal Agencies.

HUMAN-CENTERED DESIGN SERVICES

- ❖ User Experience
- ❖ Customer Experience
- ❖ Ethnography & User Research
- ❖ Relative Value Assessment
- ❖ Product Design
- ❖ 508 Compliance and Testing

Technology moves fast, its power and speed of change can be confusing for users and customers if it is not properly designed. Federal agencies have recognized this need with initiatives in Customer Experience (CX), User Experience (UX) design, and application of Design Thinking to problems. Metric5's design teams bring best-in-class design approaches to ensure that whatever the platform, the technology, or business process the users of the system are understood and their needs and priorities are addressed.

ENTERPRISE SECURITY

- ❖ Zero Trust Implementation
- ❖ Security Assessments
- ❖ Pen Testing
- ❖ Cybersecurity Response
- ❖ Federation, SSO ICAM MFA

Innovative and essential technical solutions are easily undone by ever evolving threats and malicious actors. Metric5 brings the same customer and human focus to designing security solutions maximizing the implementation of the most resilient technical infrastructures and architectures possible blended with continual monitoring and responsiveness.
